

I. FATHIMA ZAHIDA

Undergraduate Student | B.Sc. Physical Science (ICT) | University of Sri Jayewardenepura

+94 78 451 6359 | fzahida08@gmail.com | github.com/FZahida | 402/D, Sellakanda road, Mahahunupitiya, Negombo, Sri Lanka.

TECHNICAL SKILLS

- Languages: Java, Python, PHP, Pascal, SQL
- Web: HTML, CSS, JavaScript, React, Node.js
- CS: DSA, OOP, Database Design
- Databases: MySQL, MongoDB
- DevOps: Git, GitHub Actions, CI/CD, Kubernetes, IaC (Terraform, Ansible)
- Tools: VS Code, Linux, MS Office

SOFT SKILLS

Technical Communication • Team Collaboration • Critical Thinking • Troubleshooting • Self-Organization • Adaptability • Lifelong Learning

LANGUAGES

English • Sinhala • Tamil

CERTIFICATIONS

- Diploma in English Language & Literature — ESOF Metro Campus
- Spoken English Course — Advanced Center for Business Studies

PROFESSIONAL OBJECTIVE

Motivated and detail-oriented 2nd year B.Sc. Physical Science (ICT) student with a strong foundation in full-stack development, object-oriented programming, and DevOps practices. Passionate about building clean, functional web applications and eager to apply technical skills in a real-world environment through an internship or collaborative project.

EDUCATION

B.Sc. in Physical Science (Information & Communication Technology)

2025 — Present

Faculty of Applied Sciences | University of Sri Jayewardenepura

Currently in 2nd year. Relevant modules include Java, Databases, Web Development, DSA, OOP, Full Stack Development, and DevOps.

Diploma in English Language and Literature

Jan 2024 — Nov 2024

ESOF Metro Campus, Negombo

PROJECTS

HarvestHub — Agricultural Marketplace

In Progress

MongoDB | Express | React | Node.js | Multer

- Marketplace connecting Sri Lankan farmers directly with buyers via role-based access for Farmer, Buyer, and Administrator users.

Logistics Management System

Completed

Java

- Java-based system to manage logistics operations, with structured classes and planned system design.

Sales Management System

Completed

Java | OOP

- OOP-based sales management system applying inheritance and encapsulation in a practical project.

CORE COMPETENCIES

DevOps & CI/CD: CI/CD pipeline development, Git/GitHub workflows, automation & scripting, Infrastructure as Code (Terraform, Ansible).

Development: Backend scripting in Python, dynamic front-ends with JavaScript, desktop applications in Java, complex SQL queries.

Web & Database: Responsive, mobile-first interfaces with HTML5/CSS3; relational schema design, normalization, and query optimization in MySQL.

Tools: VS Code, GitHub Actions for automated testing & deployment, Linux command-line fundamentals.

Soft Skills: Clear technical communication, collaborative teamwork, analytical problem-solving and troubleshooting, self-organization, and adaptability to new tools and requirements.
